Only Patented Machine-stretched in the United States,

Has again been awarded the highest premium, a *Gold Me* (the only bands which have received this distinction), by the American Institute, at the Fair of Oct., 1849, after severe tests in competition; thus recognizing from a thorough practical and public trial, that rank and position which manufacturers have long since assigned it, as the

Best Leather Banding manufacture in the United States.

This Banding is made of the solid part only of the b Oak Leather, is thoroughly stretched, cemented and eted, will run straight, and has a perfect bearing u the pullies.

From the superior mode of its manufacture, it possesses remarkable

STRENGTH AND DURABILITY,

yond any Banding manufactured. It also excels in its running quali- s any band made upon other principles and of other materials.

The belt made of leather is the only one that can be relied upon to per- m well in all situations. It neither melts with friction, sticks to the llies, nor frets into shreds; nor is it subject to sudden combustion and struction—all which are marked characteristics of Beltings made from ms.

The Patent Machine-stretched Leather Banding,

made by the Subscriber, will stand more heat, more cold, more fric- n, and it is far more durable than those above referred to, and for all ctical purposes; it can also be made waterproof.

The best evidence of its quality is its adoption by nearly all the exten- e manufacturers and machinists throughout the city and country, the ver and Sound Steamers, and (with marked approbation) by the vari- s lines of Ocean Steamers. Since its introduction by the Subscriber it s revolutionized machinery to the general exclusion of gearing; and approval of practical mechanics is further emphatically expressed the steady increase in the demand for it from year to year. Every lt is warranted to possess all the qualities requisite for durability and d performance, or the money returned.

They can be furnished of any length and width, from 1 to 24 inches, ier single, double, or round. Also, superior Lace Leather, wi'h rivets, rrs, punches, sets, &c. WM. KUMBEL.

OF THE LATE
R. H. H. SHERWOOD.

The preparation of Dr. H. H. SHERWOOD'S well known Electro-gnetic Remedies of Compound CHLORIDE OF GOLD, which have ained a success so remarkable in the cure of CHRONIC DISEASES, ontinued as usual at his late residence, in accordance with his last will directions, by his son-in-law, WM. LARNED, with competent medi- assistance, under the name of H. H. SHERWOOD'S SUCCESSORS.

They also continue the medical practice of Dr. Sherwood, and the pub-tion of his various medical works.

His MAGNETIC MACHINES, which are admirably adapted for medi- use, are also manufactured by them, and can be sent by express or erwise to any part of the world.

Rich's Salamander Safes,

WILDER'S PATENT.—RICH'S IMPROVEMENT

Depot 146 *Water St.*

NEW-YORK:

Factory, Corner of Avenue A and St Mark's Place, Tompkins Square.

These are the only Safes manufactured which combine the two Patents. Rich's Patent was granted in September, 1842; Wilder's Patent was granted in June, 1843. Both being combined in the manufacture of these Safes, they are rendered free from dampness, and are warranted

FIRE PROOF.

From the numerous certificates to be seen at the subscribers' store, we have only room for the following; but they are sufficient to show the capability of these Safes to resist any amount of heat, under any circumstances. The great fire of New York in 1845, and the Camp-street fire, New Orleans, 1850, were two of the hotest fires ever witnessed in this country, and in each fire Rich's Safes came out triumphant. *In no one instance has there ever been a single book or paper, or a single dollar lost by fire, or thieves, in one of Rich & Co's Safes.*

THE GREAT FIRE IN CHILICOTHE, OHIO.—ONE THIRD OF THE TOWN BURNT TO ASHES!

"*Chilicothe, Ohio, 13th April*, 1852.

Messrs. Stearns & Marvin: Gentlemen,—Yours of the 5th is at hand. In reply, every Safe in the fire, EXCEPT YOURS, has proved good for nothing. I lost a large Safe—*it was perfectly destroyed*—but in the *small Salamander I bought of you, nothing was injured.*

Your obedient servant, WM. T. CLEMSON."

These repeated occurrences prove incontestably that *Wilder's Patent Salamanders*, with RICH'S IMPROVEMENT, are the best Safes made in the United States, or in the whole world. They can be had at the *Depot*, 146 *Water-street*, and at the *Factory, corner of St Mark's Place and Avenue A*, New-York.

THE HIGHEST PREMIUM, THE PRIZE MEDAL,

Was awarded at the GREAT EXHIBITION of the INDUSTRY of ALL NATIONS, in London, 1851, to

M. M. LAWRENCE,

FOR HIS

Daguerreotypes,

Sufficient testimony of their great excellence.

The Pictures have been returned in good condition, and can be seen, with the MEDAL, at the Gallery, 203 Broadway, 3 doors below Fulton-st. The public are invited to call and examine them.

Mr. LAWRENCE has entirely rebuilt the upper part of his Establishment, with a new arrangement of *light*, by which the most artistic and beautiful results are produced. For boldness, depth of tone, and truthfulness, they are not surpassed.—FAMILY AND SCHOOL GROUPS taken without difficulty.—Plates containing 20 and 30 persons, all perfect, on exhibition.

DAGUERREOTYPE LIFE SIZE.—All attempts formerly to take large Pictures have not proved satisfactory, in consequence of their distorted and magnified appearance. This has been obviated by increasing the size of the Camera. Mr. L. has just completed one of immense size. It is the *largest Camera*, and the *only one* of its size, in the world. Notwithstanding its size, several artists have pronounced it the most perfect instrument that they ever saw.

CAUTION TO THE PUBLIC.

The great popularity of

Lyon's Magnetic Powders,

For the destruction of

Bed-Bugs, Cockroaches, Moths, Ants, Fleas, Flies, &c.

And Insects on Plants, and all other Insects.

Has prompted certain parties to prepare spurious articles, and offer them under various denominations for sale. Few of these individuals dared to give their impositions out as "free of poison." The proprietor of the original article has, in this city, only the under-mentioned agents, and the principal Depot is 424 Broadway, where also may be obtained PILLS for the instantaneous destruction of Rats and Mice. Both articles are warranted, and their efficacy has been tried by the following gentlemen:—

Lawrence Reid, Esq., Professor of Chemistry.
D. D. Howard, Esq., Irving House.
Coleman & Stetson, Astor House.
S. Thayer Cozzens, Esq., late of American Hotel.
Preston H. Hodges, Esq., Carlton House.
J. L. Roome, Esq., Superintendent New-York Hospital.
Valentine Mott, M. D., Professor and President of the New-York Medical Academy.

And many of the most eminent Physicians in this city.

It has also received the First Premium of the American Institute.

READ THE FOLLOWING LETTERS.

New-York, October 1, 1850.

I have made a chemical examination of the Vegetable Powder prepared by Mr. *Emanuel Lyon*, for the purpose of destroying insects. I do not find it to contain anything deleterious to health, or what might be considered poisonous to the human species: but it is very destructive to insects, whenever they are forced to inhale the fine particles or dust occasioned by throwing the Powder forcibly in places where they frequent.

James R. Chilton, M. D., Chemist.

New-York Hospital, June 9, 1850.

I have analyzed Emanuel Lyon's Magnetic Powder, for the destruction of insects, and certify that it is entirely free from mineral or other corrosive poison. As the result of my examination, I would say that it is a combination of various vegetable substances having a peculiar influence on the insect kingdom, and that it may be used with perfect safety. In reference to its utility, its effects are astonishing. I believe it to be a skilfully prepared substance by which a valuable result is obtained, which does effect what Mr Lyon says, and is well deserving of public patronage.

Lawrence Reid, Professor of Chemistry.

☞ The genuine articles work within five minutes after application, thus every body will easily find out impositions.

E. LYON, 424 Broadway, New-York,

V. B. PALMER'S American Newspaper Subscription and Advertising Agency.

NEW YORK—Tribune Buildings. BOSTON—Scollay Building, Court-st.
PHILADELPHIA—N. W. corner Third and Chestnut.

EMBRACES most of the best Commercial, Political, Religious, Literary, Scientific, Congressional, Legislative, Reformatory, and Agricultural Journals, Prices Current, &c., in the United States, British Provinces, &c., for which he is the duly appointed Agent—specially authorized by the Proprietors to receive and receipt for Subscriptions and Advertisements; thereby affording every facility for the transaction of business with the best and most widely circulated journals of all the cities and principal towns in the country.

THE PRESS—"*The power of mind over mind, which may be multiplied indefinitely.*"

V. B. PALMER, the Agent, is prepared to give all requisite information on the subject of a complete system of ADVERTISING in the NEWSPAPERS of the COUNTRY, far and near, for which he is the authorized Agent.

He believes that the material affairs of business transactions must be aided and sustained by a proportionate exercise of intellectual energy; and this intellectual energy should keep pace with the facilities by which the material affairs of business are advanced.

Every one is now obliged, if he would keep pace with the times, to aid his physical exertions in trade, or whatever business he may be engaged in, by due recourse to those means by which his business may become generally known. This is the intellectual part of his business, and the Press is the great medium through which it must, at the present day, be developed.

Now-a-days newspapers are diffused far and wide; they are read by all, and afford the only vehicle by which men and establishments become generally known. At the present day, as yet, this engine of intelligence has not attracted attention commensurate with cotemporary improvements, simply because the materiel of business is more palpable and tangible, and it will be only by degrees that the power of the press will be acknowledged as equal to that of steam for the furtherance of business enterprise.

A business man may learn through this agency just what Journals to advertise in, to reach, effectively and cheaply, the sections wherein his trade may be extended—and adopt a judicious, safe and thorough system of advertising.

The best papers of all sections of the country are on file at the Ageney for examination and inspection.

The Agent is duly empowered to receive subscriptions and advertisements at the publishers' lowest rates. He is authorized to make contracts, and his receipts are regarded by the proprietors as payments.

His extensive connection in business, his experience and practical knowledge, his long established Agency for the best newspapers in every part of the United States, and his systematic manner of advertising, whether on a large or small scale, qualify him to impart valuable practical information, which is cheerfully communicated.

Advertisements are skilfully written, without charge, for those who are not experienced in the art, and improvements suggested in such as are written by unpractised hands. A single copy of an advertisement only is required, from which a sufficient number are printed in such style as advertisers wish to have them appear in the papers.

☞ To public institutions, reading rooms, clubs, &c., as well as to individuals, in all parts of the world, the Agency presents a convenient, safe and ready means of subscribing for the best journals of the Union, advertising in any number of the most desirable business newspapers, and obtaining valuable information.

Remittances may be made from any section of the country with entire assurance that all orders will be faithfully and promptly attended to. Address V. B. PALMER, Newspaper Agent, *New-York*, Tribune Buildings; *Boston*, Scollay's Building, Court-st.; *Philadelphia*, N. W. corner of Third and Chestnut-sts.

As he has no connection with any other person, all communications and orders intended for the Agency should be directed to V. B. PALMER. ☞ To prevent imposition, the public have been repeatedly cautioned against the acts of imitators and pretended Agents, who infest some of the cities.

OPINIONS OF THE PRESS.

This old established Agency continues to enjoy the full confidence of the press and th public. Whatever is entrusted to Mr. P., or his agents, is promptly attended to, and as the Press is under very great obligations to him, we are happy to know that he is enjoying the unlimited confidence, as he deserves the good wishes, of those whom he has so long and so faithfully served.—*Albany Evening Journal.*

To such of our country cotemporaries as have not secured the services of an advertising agent in New York, we commend the old and well established agency of Mr. V. B. Palmer, in the Tribune Buildings. His business relations extend to nearly the entire press of the country, and the promptitude with which his accounts are always adjusted, has secured for him the confidence of those who have had transactions with him. Mr. Palmer also has agencies in Boston and Philadelphia.—*Buffalo Courier.*

From an intimate acquaintance with Mr. Palmer, we are prepared to say that any business connected with the Agencies which he advertises, will be both promptly and honorably transacted. In the matter of Newspaper Agencies, he has reduced the business to such an admirable system that all parties can hardly fail to be satisfied.—*N. Y. Daily Tribune.*

Mr. Palmer has, by dint of great energy and indefatigable industry, succeeded in organizing this agency, and accomplishing, by means of it, objects that were deemed altogether chimerical when it was first commenced. His success has raised up a number of imitators, who now advertise Newspaper Agencies in the Eastern cities. Mr. Palmer is no way connected with any of these. Having the most unlimited confidence in his capacity and integrity, he is fully authorized to make all necessary contracts as Agent for this paper. We wish it to be distinctly understood, that we have no other Agent in either of the cities of New-York, Philadelphia, or Boston, and that all inquiries relative to such contracts, coming from these cities, even although directed to ourselves, will be referred to his Agency.—*Louisville Democrat.*

V. B. Palmer's plan of a newspaper agency for advertising and subscriptions, is deserving of patronage, both from the public and from the country press. Mr. Palmer has acted for the Union for five years, and we bear willing testimony to his fidelity and promptness. We shall accept of no advertisements from any other agencies in New York or Boston, and feel bound to protect Mr. Palmer, as much as possible, from having the benefits of his plan taken from him by any one who may have surreptitiously availed himself of the forms and arrangements of Mr. Palmer, in the establishment of a similar agency.—*Saco (Maine) Union.*

V. B. Palmer, Tribune Buildings, is our *only* Agent in New-York. We make this announcement in answer to several applications for that purpose.—*Morristown Jerseyman.*

V. B. Palmer is our only Agent in Boston, New-York, &c. No attention will be paid to any other Agency in the above cities.—*Bangor Democrat.*

We have been humbugged all we ever shall be, by Eastern Agents; and now want it distinctly understood, that we shall insert no advertisements, hereafter, unless accompanied by the money, as per terms in our paper, unless received through V. B. Palmer, our *only authorized* Agent in New-York, Boston and Philadelphia.—*Monroe Commercial.*

Our Agency.—V. B. Palmer, the well known and enterprising American Newspaper Agent, has been deputed by us to procure subscriptions and advertisements for the *Recorder* in the cities of New-York, Boston and Philadelphia, whose every act in reference to the above will be binding on us.—*Brockville (Can.) Recorder.*

V. B. Palmer is our only authorized Agent in Boston, New-York or Philadelphia, to receive advertisemsnts, and we shall not accept of any coming from other persons. The country press has been most wofully humbugged in days gone by, and we are determined to be on the safe side in future. Our eyes have been opened to "light" of late, upon this subject, and we surmise we are not the only one who has had his fingers burnt. We would here say to —— ——, of ———, if he will pass his advertisement into our Agent's office, and Mr. Palmer says that it is "all right," we will insert it according to order. If not, do not trouble us again.—*Elmira Democrat.*

OF

THE CITY OF NEW-YORK,

1852—1853,

COMPILED

BY H. WILSON,

JOHN F. TROW, Publisher, 49 Ann St.,

CONTAINS

25,000 MORE NAMES

Than any other City Directory ever published.

Price Two Dollars and a Quarter.

Opinions of the Press.

"WILSON & TROW'S DIRECTORY FOR 1852-53.—We have received a copy of this handsome volume, issued on the first inst. It contains over six hundred pages of names, and abounds likewise in a large amount of valuable statistical and other information. Although in so extensive a work some errors must unavoidably occur, the Directory before us is undoubtedly as correct as it could be made under the circumstances; all the canvassing having been accomplished since the first of May."—*Courier and Enquirer.*

"NEW CITY DIRECTORY.—We have just received, fresh from the press, a copy of Wilson & Trow's City Directory for 1852-3. We have had only a few moments to examine it, but enough to convince us that it is the fullest and most perfect Directory ever issued for this city. It has been got up with extraordinary care, and is complete in all its parts. We have been curious to compare it with a copy of Rode's Directory, also just issued and find that, while Rode's contains only 568 pages, Wilson & Trow's contains 673 pages, giving the latter the advantage of 105 pages. It also has 10 lines more per page. So that with 673 pages, and 180 lines to the page, it has 122,190 names; while Rode's, with 568 pages, and 170 lines to the page, has only 96,560 names, leaving a balance in favor of Wilson & Trow of 25,630 names. As the great essentials of a Directory

Opinions of the Press—CONTINUED.

are accuracy and fulness, the volume of Messrs W. & T. must take precedence of any other yet offered. We must confess, also, that the typography, &c, of Wilson & Trow's Directory is very superior to that of its competitor. We have not space to day to condense some interesting statistics from the new Directory, but shall do so at the first opportunity." *Evening Mirror.*

"STILL ANOTHER.—'*The Directory of the City of New-York*,' published by Wilson & Trow, was handed us last evening. Although issued from the press one day later than its rival by Rode, it contains a greater number of names, and covers very many more pages. There are in it 105 pages more than Rode's, 10 lines more on each page, and not far from 25,500 more names—Wilson & Trow's containing about 122,000, and Rode's about 96,500. Wilson & Trow's office is at 49 Ann street."—*New-York Sun.*

"CITY DIRECTORY.—We have received Wilson & Trow's Directory, which, considering the short space of time afforded to its compilation and getting up, is a fair specimen of what may be done in New-York, by energy backed by capital We have not been at the labor of reading through its 673 closely printed pages, to test the accuracy of ALL of its contents, but if fullness of matter be a recommendation to a work of the kind, Wilson & Trow's Directory abundantly has it."—*N. Y. Merc. Jour.*

"WILSON & TROW'S NEW CITY DIRECTORY —This is the largest and fullest Directory of our city which has ever been issued. It contains a hundred pages more than any other one, and nearly twenty thousand more names The number of its pages of names alone is six hundred and seventy-three, and on each page there are one hundred and eighty lines. The number of names in it much exceeds one hundred thousand. It is very handsomely printed, on clear and white paper, and its appearance is what such a book should be

"We have examined it for accuracy and completeness, within the range of our acquaintance, and do not hesitate to pronounce it the best Directory of the city ever yet issued, and worthy of the patronage of all who desire a reliable work.

"The enterprise which has been manifested in its preparation, is worthy of all praise It is only thirty-one days, including Sundays, since the canvass of the city was commenced, leaving about twenty-six working days, and we now have a volume of nearly seven hundred pages of mere names and residences, neatly and handsomely printed, and justly claiming patronage for its completeness and reliableness.

"Mr. Wilson, upon whom the labor of compilation has chiefly rested, has published for several years the 'New-York Business Directory,' a work which is well known for its completeness and accuracy, and which is liberally patronized by the public. He was also Mr Doggett's assistant, at the time of the competition between Messrs Doggett & Rode, a few years since. Probably there is no man in the city better qualified than he is, from experience, to prepare a complete and accurate Directory of the city.

In addition to the names of citizens, there is an Appendix of nearly an hundred pages, which is very complete in its information of public institutions, banks, incorporated companies, Corporation of the city and its officers, transportation lines, churches, hotels, publications, schools, and every variety of miscellaneous information.

This work is also embellished with a neat map of New-York and Brooklyn, which presents, with great clearness and distinctness, the names and location of the several streets."—*National Democrat.*

Opinions of the Press—CONTINUED.

NEW DIRECTORY.—Wilson & Trow, 49 Ann street, have just sent us a copy of their new City Directory, which is said to contain 25,000 more names than any other City Directory ever published, and equal to 133 large octavo pages. It contains 673 pages, on which are enrolled, on handsome paper and clear type, 122,190 names, the largest number heretofore in any other Directory having been 96,500. It contains, also, a very well-engraved map of the city, and divers other pieces of information about streets, public places, persons, trade and commerce, most important to every man of business, and even every sojourner in our midst, who has nothing more to do than to sit in his hotel in his arm-chair, with a copy of this *vade mecum* on his knee, to become familiar with a complete *outline* of this mammoth city, which is quite enough for any stranger. The price is $2 25—*Christian Intelligencer.*

"NEW-YORK DIRECTORY.—Since the death of Mr. Doggett, the compiler of the New-York Directories for many years, there has been a struggle between two different houses for the place thus left vacant, and two different Directories have appeared as candidates for public favor. But the choice between them is so marked and decisive, that there can be no doubt as to where the patronage of the public will be bestowed. Rode's Directory has been 'got up' with so little care, as actually to diminish the number of names instead of increasing them, while that of Wilson and Trow shows an increase of over 25,000. This is a very large increase, and shows the care of the compiler in looking up his facts." The Directory of Wilson and Trow was published on Tuesday, and as it has a manifest advantage over its competitor in the number of names which it gives to the public, so also has it in general accuracy and in the style of its execution It is neatly printed, and the proof sheets have been read and revised with great care. The New-York *Mirror*, in speaking of it, says that 'it is the fullest and most perfect Directory ever issued in this city.' It contains a map of New-York; a street directory; a table of city offices, banks, insurance offices, building associations, railroad lines, expresses, newspapers, magazines, churches, asylums, societies, public schools, libraries, &c. Also, consuls residing in New-York, Foreign ministers at Washington, American ministers abroad, and other important statistics It is for sale at the office of the publisher, John F. Trow, No. 49 Ann-street, New-York."—*Brooklyn Eagle.*

"THE CITY DIRECTORY.—We received from the publishers, Messrs. Trow & Wilson, on the first of the month, a copy of their new City Directory for 1862 and '53. We have carefully looked it over, and must give as our opinion that it is a decided improvement on all previous efforts in the way of Directory. The *Mirror*, whose editor has been fortunate enough to see a copy of the rival Directory, informs us that it is minus some 25,630 names that appear in the edition of Messrs Trow & Wilson—that is, Wilson & Trow's Directory contains 122,190 names, while the other contains only 96,560. This fact is the most conclusive proof of the relative value of the two Directories. In addition to the Directory of names, this work contains a mass of useful information, most systematically arranged for the guidance of all who turn to its pages for information We would advise business men, who wish to have in their counting houses a *perfect* and *correct* City Directory, to procure a copy of Wilson & Trow's, as we believe it to be by far the best of the two published this year. It is published at 49 Ann street, at $2 25 a copy."—*Dispatch.*

"NEW-YORK AND BROOKLYN DIRECTORIES.—We have received a copy of Wilson & Trow's Edition of the former work, and we must say

Opinions of the Press—CONTINUED.

that it is one of the most complete, well executed, and voluminous works of the kind issued. It contains 25,000 names and 133 large octavo pages, more than any other City Directory ever published. Also, some very valuable statistical matter, useful to every class of persons. For correctness, as far as we have examined it and are capable of judging, we are inclined to believe it as near faultless as such a work can possibly be."—*Brooklyn Advocate.*

"We are greatly obliged to Mr. John F. Trow, of 49 Ann-street, for a copy of Wilson & Trow's Directory for the city of New-York for 1852–'53, and find that this Directory contains a great number of names, which we have looked for in vain in the Directory of Mr. Rode, which we received earlier. An Appendix contains very elaborate information respecting the different societies, consulates, &c.; and we would recommend all business people to get this well-printed book, which also contains 25,000 names, and 133 pages more than any Directory that has ever been published."—*New-Yorker, Handels Zeitung*, 5th June, 1852.

"TROW'S NEW-YORK DIRECTORY.—This valuable and important work, compiled by Mr. H. Wilson, and published by John F. Trow, 49 Ann-street, made its appearance a few days ago. We have examined it, and found it, so far as we can judge, perfectly correct. We commend it to our citizens, as a work entitled to the most unlimited confidence."—*Atlas.*

"WILSON & TROW'S DIRECTORY.—We have received from the publishers a copy of this valuable and reliable work. We observe that several blunders and imperfections that were published in the Directory of last year, and which occasioned *us* no little trouble and annoyance, are correctly stated in the new Directory of Messrs. Wilson & Trow. We have also heard a number of our mercantile friends speak of it in terms equally commendable. Mr. Trow has every facility for getting up a good Directory—and for issuing it an early day; facilities which, we feel bound to say, the publisher of a rival Directory does not possess. It contains no less than 25,000 more names than any other Directory ever published. Now, we would like to know what utility or benefit there can be in a work of reference that *does not contain these twenty-five thousand names?* Such a publication must be well-nigh useless. We are pleased to learn that Messrs. Wilson & Trow's Directory is meeting with an extensive sale—and if its merits were more generally known and appreciated, the publisher would doubtless experience some difficulty in supplying the demand. The *Tribune*, in a notice of the two new Directories, pointed out a large number of blunders in Rode's;—it also referred to what it thought incorrect statements in several instances in Trow's; but, unfortunately for the Tribune's critic, the misstatements that it alleged were contained in Trow's existed merely in the imagination of the writer of the criticism, if we except a single unimportant statement with reference to a public officer."—*Merchants' Ledger.*

DIRECTORY.—Wilson & Trow's new City Directory contains 25,000 more names than any other City Directory ever published, and equal to 133 large octavo pages. It contains 122,190 names, the largest number heretofore in any Directory having been 96,560. It has, also, a very well-engraved map of the city, and other information about streets, public places, persons, trade and commerce, most important to every man of business. It is beautifully printed, and in all respects is a well appointed and well furnished work: such as every place of business in this city should be supplied with at once.—*New-York Observer.*

Opinions of the Press—CONTINUED.

"We acknowledge with much pleasure the receipt of a copy of the DIRECTORY OF THE CITY OF NEW-YORK, for 1852-3, compiled by H. Wilson, and published by John F. Trow, 49 Ann-st. It contains 650 closely printed pages of names, in double columns, besides a useful Appendix with names of City Officers, Banks, Insurance Companies, and a complete *Street Directory*, which in these days of *Places* is indispensable to the oldest inhabitant. The utmost pains have been taken to render this Directory full and complete; the paper and execution are good, and as far as we have tested it, we have found it perfectly satisfactory. It is to be hoped that the purchasers will be many, and the habitual borrowers few."—*Churchman.*

WILSON & TROW'S DIRECTORY. John F. Trow, 49 Ann-street.

"The palm must be given to this new candidate in this important and difficult field. Though issued with astonishing rapidity, it is more comprehensive, and so far as we can judge, more accurate than any Directory ever before published. It has 122,190 names, besides a great variety of other needful information. It is very neatly printed, and arranged with perspicuity and skill. When the immense labor of compiling and of printing such a work is considered, the publication of a volume so large, so correct and so handsome as this, is but little less than marvellous. The Directory has now become an indispensable; it is a great favor to have it so cheaply and expeditiously supplied.—*New-York Evangelist.*

"This new Directory of Messrs. Wilson & Trow is the fullest, most correct, and best printed (and prepared), that has yet been issued."—*Home Journal.*

"'THE DIRECTORY OF THE CITY OF NEW-YORK, for 1852 and 1853,' compiled by H. Wilson, published by John F. Trow, 49 Ann-street. This is by far the most complete Directory of the year in every point of view, and should, by all means, be sustained in preference to the 'regular' edition, which fully sustains its fame for incorrectness."—*Golden Rule.*

THE DIRECTORY OF THE CITY OF NEW-YORK, for 1852-1853. Compiled by H. Wilson. New-York: John F. Trow, publisher.—"This is a very neatly printed Directory, bearing the tokens of being very carefully compiled. In point of size of the pages, the number of names on each page, and number of pages, it exceeds any Directory which has yet been published in New-York. It is estimated that it contains some twenty thousand names more than any previous publication. We have looked over its pages, and so far as our acquaintance extends, have found it perfectly accurate.—*Evening Post.*

"WILSON & TROW'S NEW-YORK CITY DIRECTORY.—Now that New-York contains half a million inhabitants, the compilation of a Directory is not an insignificant labor. The materials for this volume, which contains nearly seven hundred octavo pages of names, and a hundred and eighty on a page, were collected, arranged, set in type, printed and bound in about 26 working days. It is the greatest feat at book-making ever performed in this city. This book was published at the time when it has been usual, heretofore, to send the first page of copy to the printer. To accomplish this amount of labor, at least one hundred and forty men have been employed night and day. It was stated by the late Mr. Doggett, when his Directory contained fifty-five thousand names, that his copy of manuscript, in successive pages, would extend a mile, or from the Battery to Canal-street. This volume has more than double that number of names, and its manuscript copy would extend two miles, or from the Battery to 14th st."—*Book Trade.*
